

## 2018-2019 CLASSROOM ENVIRONMENT DESCRIPTION FORM

Student Name: \_\_\_\_\_ Current Teacher: \_\_\_\_\_

Each spring, in preparation for the following school year, teachers divide their classes into instructional groups designed to promote the most effective learning environment possible. These groups are based upon the teacher observation, current test results, curriculum grouping, student ability factors, the ratio of boys and girls, the individual ages of the students, other behavior and social concerns, and exceptional educational needs.

Please list any justifiable educational need that you would like us to take into consideration when placing your child. Careful consideration will be given to the classroom environment you describe that would benefit your child academically, socially, or emotionally. However, the most important factor in class placement is the make-up of the classroom as a whole so a culture conducive to learning can be created. Please note that parent input is just one aspect of determining student placement.

My child will do best in a classroom environment that.....
