Students will be able to:

Social Studies Study Guide

Grade Two

Unit 2- Exploring Earth (Lessons 4-6)

Big Idea: How do we find out about places on Earth?

Vocabulary: (see glossary)

natural resource reduce reuse recycle
landform

Things to know:

- Kinds of natural resources and how to use them. (ex. trees, water, oil)
- Why it's important to save natural resources.
- Differences between kinds of weather.
- Why we need to take care of the Earth.
- How to use a landform map.

Students will be able to:

- Read a landform map and identify different landforms.
- Write about how to care for the Earth.
- Write about their favorite and least favorite types of weather and explain why.
- List natural resources and explain their use.
