

Project Fair 2018

“Innovation and Creativity in Action”

“Develop, explore, create, encourage, teach and learn: enhancing skills for a lifetime of innovation!”

Wednesday February 21st 6:30-7:30 pm

(Project set-up is Tuesday February 20th, 6:30-7:30 pm in the gym at Section)

Project Fair is a chance for you to learn something new and share something that interests you with everyone else. Your project can be about **anything** that interests you and any on topic you want to share. These may include: your family, your pet (sorry – pets have to stay home, but photos are welcome), an animal that you’ve seen or heard about, a trip you’ve taken, a place you want to visit, an experiment you want to try, something (or someone) historical that fascinates you, a book you love, a sport you play, a sports team you’re a fan of, a science topic, a hobby **ANYTHING!**

You can do the project by yourself or you can work with friends from your class, other grades or even someone from outside Section. You can get help from a grown-up if you need it.

Your project should be on a display board up to 3’ x 3’ in size and it will need to be able to stand up by itself (i.e. there’s nothing to lean it against). You will set it up on a table in the gym at Section on Tuesday February 20th, 6:30-7:30 pm.

If you would like to participate, please complete and detach the sign-up sheet below and return it to school by Friday February 2nd.

If you have any questions, feel free to contact either of the co-chairs (Theresa Glasgow at theresa44@uwalumni.com or 414-750-4114 or Deana Knuteson at dlsexson@uwalumni.com or 262-758-7380.
